

UNIQUE ITEM IDENTIFICATION

ADS Purchase Order Attachment: MIL-STD-130N UID

- Per a contract or purchase order that was received by ADS, the product is required to be marked with Unique Identification Tags (UID).
- UID is a way to distinguish like items from each other, such as serialization or other system.

SUPPLIER REQUIREMENTS

- Provide Unique Item Identification on all items for which the ADS PO has designated.
- UID marking shall be in accordance with:
 - DFARS 211.274 Items Identification and Valuation
 - DFARS 252.211-7003 Item Identification and Valuation (Jan 2004)
 - MIL-STD-130N Unique Item Identification Labeling Change 1, dated 16 Nov 2012
- Complete the Section below and return it with the items shipped and to the ADS Buyer.
- Contact the ADS Buyer if there are any questions.

Seller agrees to provide UID information to ADS prior to shipping items against this purchase order. Information may be provided in the form of an e-mail from the seller or by filling in the following tables. The following information shall be provided to the ADS buyer as soon as it is available.

UID Construct 1: Provide the following information. *(Expand table or use additional sheets if necessary.)*

Individual Item being purchased	Manufacturer CAGE Code as it appears on UID tag	Unique Serial Number within the enterprise as it appears on UID tag

UID Construct 2: Provide the following information. *(Expand table or use additional sheets if necessary.)*

Individual item being purchased	Manufacturer CAGE Code as it appears on UID tag	Original Part Number as it appears on UID tag	Unique Serial Number as it appears on UID tag

I hereby certify that the UID information provided above is truthful and correct to the best of my knowledge.
